

Trekker KIT

5 V / 1 500 mA

The PT Flap 8 solar charger and PT 10.000mAh Power Delivery 22,5W battery pack weighs 402g and provides a remarkably efficient package.

Battery integrating the «transfer mode», allows a simultaneous charge-discharge and thus a solar recharge while charging your devices. Perfect use day and night.

Perfect to practice occasional outdoor activities with the security of a smartphone always loaded.
